# ***SRISHTI SECURITY SYSTEMS***

***WELCOMES YOU ALL***

Srishti Security Systems

## SYSTEMS SUGGESTED /RECOMMENDED

1. ACCESS CONTROL
2. AUTOMATION
3. CCTV
4. DIGITAL VIDEO DOOR PHONE
5. ENERGY SAVING SENSORS
6. FIRE ALARM
7. LED LIGHTING
8. MODULAR SWITCHES
9. SMART DOOR LOCKS

# ACCESS CONTROL

- Access control systems are the electronic systems that are designed to control through a network and they should have an access to a network. Access Control System recognizes authenticates and authorizes entry of a person to enter into the premise thereby giving complete protection ensuring security with the system.

Srishti Security Systems

# TYPES OF ACCESS CONTROL

- RFID
- Palm/Face Reader
- Finger Print

## BRIEF ABOUT KNX HOME AUTOMATION

- There is increasing demands for smart homes, where appliances React Automatically to changing environmental conditions and can be easily controlled through one common devices.
- The KNX Technology is the result of pooling knowledge and experience gained over the last 20 years with the predecessor Technologies to KNX, i.e. the European Installation Bus(EIB), The European home System (EHS) .
- KNX is one System Control all functions such as easy arrangement of wiring CAT6 & EIB. Easy to match new requirements like changes and extension.

Srishti Security Systems

## APPLICATIONS

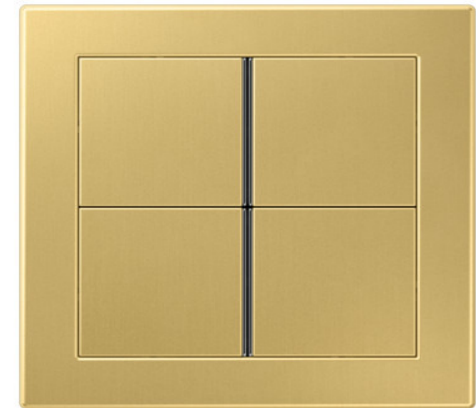

- Different system in building
- Venetian blind control in a commercial building
- Weather dependent control application
- Light mood control
- Illumination control in corridors
- Audio Visual
- Failure and operation message
- Integration of alarm functions
- Flexibility in later installations

Srishti Security Systems

## JUNG KNX KEYPADS

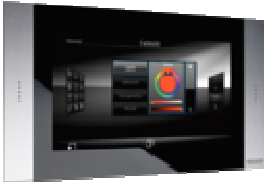

- Great Look
- Easy to operate
- Multiple Functions
- Inbuilt led
- Ideals for room, living dining ,foyer areas

## TENSE SWITCHES

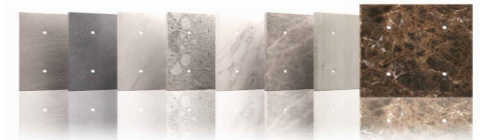

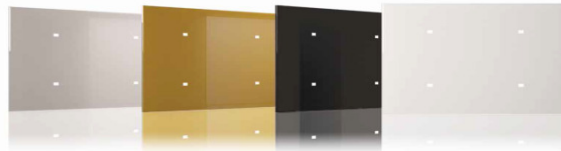

- Tense has top design automation switches with room controller (also having socket frames)
- Tense keypads are stylish, easy to use, very reliable and designed with passion .
- Advanced technologies and premium raw materials are used to create our unique tense products which are knx compatible and are as well as available on 12-24v ac/dc(Nonc)

Srishti Security Systems

# TENSE PRODUCTS

- Intensity Alu- Bronze
- Intensity Metal
- Intensity Glass
- Intensity Corian
- Intensity Stone
- Intensity Wood
- Invisible
- Infinity Glass
- Infinity Alu- Bronze
- Infinty Metal

Srishti Security Systems

## Intensity Wood

## Infinity Glass

## Infinity Alu Bronze

## Infinity Metal

Srishti Security Systems

## SINGLE POINT CONTROL FOR LIGHTING ON-OFF, DIMMING, BLIND CONTROL, AC ON-OFF, SCENE CREATION, SCHEDULING & MASTER CONTROL

CCTV

Srishti Security Systems

- CCTV Cameras are being installed every where for purpose of security and crime prevention and detection. There are many type of CCTV cameras are available for this purpose. This are:-

INDOOR CAMERA

BULLET CAMERA

DOME CAMERA

OUTDOOR CAMERA

IR DAY/NIGHT CAMERA

PAN / TILT ZOOM CAMERA

Srishti Security Systems

# CCTV

## HIGH RESOLUTION 2/3/4/5 – MP IP CAMERAS

Srishti Security Systems

## NETWORK VIDEO RECORDER

- A Network video Recorder is a specialized computer system that includes a software program that records video in a digital format to a disk drive, usb flash drive , SD memory card or other mass storage devices.
- Hybrid NVR/DVR surveillance system exist which incorporate functions of both NVR and DVR .
- 8/16/32/64/128 channel network video recorder.

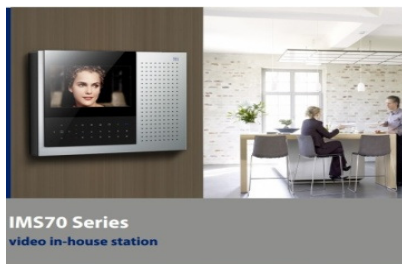

Srishti Security Systems

## DIGITAL VIDEO DOOR PHONE

- Video door phone is a stand –alone system used to manage calls made at the entrance to a house ,building .
- It is also called as the visitor identification system.
- The main feature of video door phone system is that it enables the person indoors to identify the visitor ,communicate and open the door to allow access to the person calling.

Srishti Security Systems

## ENERGY SAVING SENSOR

Highly Energy saving KNX Sensors Recommended at Stair case, Parking area..etc

Motion Sensors available for Dresser, Toilets..etc

## FIRE ALARM SYSTEM

- A fire alarm system has a number of devices working together to detect and warn people through visual and audio appliances when smoke, fire, carbon monoxide or other emergencies are present. These alarms may be activated automatically from smoke detectors, and heat detectors or may also be activated via manual fire alarm activation devices such as manual call points or pull stations.
- Alarms can be either motorized bells or wall mountable sounders or horns. They can also be speaker strobes which sound an alarm, followed by a voice evacuation message which warns people inside the building not to use the elevator.

# LED LIGHTING

Srishti Security Systems

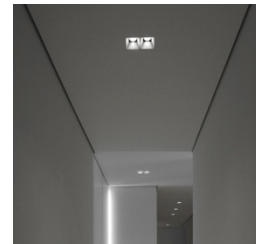

- Designing light is about emotions, passion, performance and dreams. It combines technology with human need and beauty, made to show something that the world did not know it exists. We find beauty not in the thing itself but in the patterns of shadows, the light and the darkness, that one thing against another creates.
- Light creates an impact. Light reveals shape, surface and colour ; it informs our individual perception of the world and provides with a common language. Light is integral to architecture; it reveals beauty, function and form. It defines the image, colour and texture. It can make a space look big or small, cool or hot, speak softly and loudly.

# LIGHTING -SPOON -SPAIN

- Interior Track Lights
- Interior Ceiling Surface
- Interior Ceiling Suspended
- Interior Ceiling Recess
- Interior Wall Surface
- Exterior Floor Recess
- Exterior Floor Standing
- Exterior Spot Lights
- Exterior Floor Standing
- Exterior Wall Recess
- Under Water Pool Lights
- Exterior Ceiling Recess
